

THE WEALTH ARCHITECT: ULTIMATE FINANCIAL EDUCATION & MONEY-MAKING COURSE

A Comprehensive, Zero-Budget, 3-Hour-Daily Framework for Building Wealth Through Digital Products, Micro-SaaS, and Compounding Systems

FOR: Trinidad-based, zero-budget, 3-hour daily window, AI does 80-90% of work

GOAL: Financial independence by end of 2026

PHILOSOPHY: Your lived transformation (shack to house) IS your credential. Not book profit. Not polished expertise. Real, raw, authentic journey.

CORE BELIEF: Every dollar and minute compounds—positively or negatively. You are planting trees whose shade your future self will enjoy.

TABLE OF CONTENTS

PHASE 0: FOUNDATION & MINDSET (Weeks 1-2)

- Module 0.1: Your Money Autobiography — Rewrite Your Origin Story
- Module 0.2: The Compounding Theory — Money as Amplified Time
- Module 0.3: The 1% Daily Improvement Framework
- Module 0.4: Creative Thinking & Problem-Solving as Wealth Tools

PHASE 1: SKILL ACQUISITION & VALIDATION (Weeks 3-6)

- Module 1.1: Mastering Sales & Storytelling (PBD Style)
- Module 1.2: The Paid Presentation Method (Dan Henry's \$40M Approach)
- Module 1.3: High-Income Skills for Zero-Asset Founders
- Module 1.4: Validation Framework — 6-Phase Ultimate Idea Validator

PHASE 2: BUILDING YOUR FIRST REVENUE ENGINE (Weeks 7-14)

- Module 2.1: The Paid Presentation Funnel — From Free Content to High-Ticket
- Module 2.2: Digital Product Creation — No-Code, AI-Assisted
- Module 2.3: Micro-SaaS Fundamentals — AI-Buildable Ideas
- Module 2.4: Traffic & Launch — Selling Without an Audience

PHASE 3: SCALING & SYSTEMS (Weeks 15-24)

- Module 3.1: The 7 Business Metrics That Build Real Wealth (Dan Martell)
- Module 3.2: The Doubling Game & Compounding Engines
- Module 3.3: Multiple Income Streams — Active to Passive
- Module 3.4: Automation, AI & Delegation Systems

PHASE 4: PRESERVATION & LEGACY (Weeks 25-30)

- Module 4.1: Keeping What You Build — Defense Systems
- Module 4.2: Tax Efficiency & Legal Structures
- Module 4.3: Generational Thinking — Five Moves Ahead

- Module 4.4: Your 30-Day Wealth Activation Plan

APPENDICES

- Appendix A: 30-Day Creative Thinking & Problem-Solving Challenges
 - Appendix B: Complete Sales Scripts & Templates
 - Appendix C: Micro-SaaS Idea Validation Checklist
 - Appendix D: Weekly Power Block Schedule
 - Appendix E: Evidence of Compounding Log Template
-

PHASE 0: FOUNDATION & MINDSET

MODULE 0.1: YOUR MONEY AUTOBIOGRAPHY — REWRITE YOUR ORIGIN STORY

The Core Insight

Patrick Bet-David fled Iran as a kid with nothing. Bezos started in a garage. Musk bet it all. Buffett started young. The difference? They rewrote their Money Autobiography.

The super-rich don't see money as evil or scarce. They see it as **points in a game**—a tool for freedom, impact, and optionality. They obsess over **asymmetric bets**: limited downside, unlimited upside.

Your Constraint IS Your Advantage

You are from Trinidad. Net worth -\$242,855.83. \$419 monthly surplus. 3-hour daily window. Published author of “Hacking Your Mindset” (2023). You went from shack to house.

This is not a liability. This is your moat.

Most “experts” selling mindset courses have never lived the transformation. You HAVE. Your lived experience is the credential. Your story of going from negative net worth to building systems is the product.

The Rewrite Exercise (Do This Now — 10 Minutes)

Step 1: Write your CURRENT money story (be brutally honest): “Money is stressful/hard/unfair because...”

Step 2: Rewrite it as your FUTURE operating system: “Money is a skill I’m mastering daily. It flows to value creators who play the long game. Every dollar I control is a seed for my future self. I am the author of my financial destiny.”

Step 3: Anchor it to your transformation: “I went from [specific struggle] to [specific win]. If I can do that, I can teach others to do the same. My journey IS the curriculum.”

The 1% Daily Improvement Framework

You don't need massive leaps. You need consistent, compounding 1% improvements.

Day	Improvement	Cumulative Effect
1	1% better	1.01
30	1% better daily	$1.01^{30} = 1.35$ (35% better)
90	1% better daily	$1.01^{90} = 2.45$ (145% better)
180	1% better daily	$1.01^{180} = 5.99$ (499% better)
365	1% better daily	$1.01^{365} = 37.78$ (3,678% better)

Your daily 1%: One sales call. One piece of content. One skill practice. One outreach message. One system built.

Action Steps (This Week)

- 1. Complete the Money Autobiography rewrite
- 2. Write your “from shack to house” origin story (300 words)
- 3. Set up your “Evidence of Compounding” log (Google Sheets)
- 4. Define your ONE macro problem you solve

MODULE 0.2: THE COMPOUNDING THEORY — MONEY AS AMPLIFIED TIME

The Core Principle

Time compounds relentlessly. Waste 30 minutes scrolling → you're tired later, less productive tomorrow, smaller results this month, missed opportunities this year, a different (smaller) life in a decade.

Money does the exact same thing.

Spend \$5 frivolously today → that \$5 (plus what it could have earned) is gone forever. Over decades, that repeated choice creates a dramatically poorer version of you.

Save and invest that same \$5 wisely → it works while you sleep, earns returns on returns, and funds freedom later.

The Time-Money Mirror Framework

Dimension	Time Analogy	Money Parallel	Positive Action	Negative Trap	Compounding Multiplier
Daily	30 min wasted	\$5-20 impulse spend	Invest 1 hour/skill or \$	Small leaks/debt interest	Slow build or erosion
Monthly	Missed goals	Low savings rate	Automate savings + doubling moves	Lifestyle creep	Trajectory setter

Table 2 – continued

Dimension	Time Analogy	Money Parallel	Positive Action	Negative Trap	Compounding Multiplier
Yearly	Stagnant skills	Missed investing	Layer assets (business + markets)	Chronic under-earning	Freedom or struggle
Decades	Different life path	Missed early investing	Estate planning + influence	No protection	Dynasties or burdens

Positive vs. Negative Compounding

Positive Compounding (The Wealth Snowball):

- High savings rate + automatic investing
- High-return assets (business equity, index funds)
- Reinvestment (never interrupt unnecessarily)
- Skills & influence (compounding into higher income)
- Good habits (health, networks, learning)

Negative Compounding (The Poverty Avalanche):

- Debt interest compounds against you (credit cards at 20%+)
- Lifestyle creep or small daily leaks
- Missed opportunities (not learning skills, not starting)
- Losses hurt more than gains help: 50% loss requires 100% gain to break even

The Rule of 72

Divide 72 by your annual return rate = years to double.

- 10% return? ~7.2 years per double
- 20% return? ~3.6 years per double
- Focus on the NEXT double, not the total

Your Compounding Policy (Write This Down)

“I treat every dollar and hour as a seed for my future self. I review quarterly. I choose positive exponential growth.”

Action Steps (This Week)

1. Track every dollar and hour for 7 days. Label as “positive compound” or “negative compound”
2. Calculate rough lifetime cost of one bad habit (use Rule of 72)
3. Kill one negative compounder (smallest debt or daily leak)
4. Identify your next double (skill, side income, investment)

MODULE 0.3: CREATIVE THINKING & PROBLEM-SOLVING AS WEALTH TOOLS

Why This Matters for You

You have 3 hours daily. You have \$0 budget. You need to solve problems others will PAY to have solved. Creative thinking isn't a "nice to have"—it's your competitive advantage.

The Frameworks

1. Divergent Thinking (Fluency, Flexibility, Originality, Elaboration) Generate many ideas without initial judgment. Classic test: 50+ alternative uses for a paperclip.

Business Application: When stuck on "how do I make money," generate 50 ideas in 15 minutes. Don't judge. Then converge on the best 3.

2. Lateral Thinking (Edward de Bono) Approach problems indirectly. Challenge assumptions. Use provocation or random stimuli.

Business Application: Instead of "how do I get more customers," ask "what if customers came to me because I solved a problem no one else sees?"

3. SCAMPER (Innovation Checklist)

- **Substitute:** What can you replace?
- **Combine:** What can you merge?
- **Adapt:** What can you borrow from another industry?
- **Modify/Magnify/Minify:** What can you change size, shape, or scale?
- **Put to another use:** What other contexts work?
- **Eliminate:** What can you remove?
- **Reverse/Rearrange:** What if you flip the order?

Business Application: Take any existing business model. Apply SCAMPER to create your unique version.

4. Design Thinking (Human-Centered) Empathize → Define → Ideate → Prototype → Test

Business Application: Don't build what YOU think people need. Find 10 people with a real problem. Build the smallest solution. Test. Iterate.

5. The 5 Whys (Root Cause Analysis) Ask "why" five times to get to the root of any problem.

Business Application:

- "Why am I broke?" → "Because I don't have enough income."
- "Why don't I have enough income?" → "Because I haven't built a revenue engine."
- "Why haven't I built a revenue engine?" → "Because I keep analyzing instead of executing."
- "Why do I keep analyzing?" → "Because I'm afraid of failure."
- "Why am I afraid of failure?" → "Because I tie my worth to outcomes instead of identity."

Root cause: Identity attachment to outcomes. **Solution:** Separate identity from outcome. Execute as experiment.

30-Day Creative Thinking Challenges (Integrated into Daily Practice)

Days 1-10: Foundations & Lateral Thinking

1. Classic Lateral: Solve the “man walks into a bar” puzzle (assumption-breaking)
2. Divergent: 50+ alternative uses for a common object
3. Reframing: Take “I’m always broke” → rephrase as 5 “How Might We” questions
4. SCAMPER: Apply to your current life/business situation
5. Situation Puzzle: Solve the snowman puzzle (five pieces of coal, carrot, scarf)
6. Design Thinking Mini: Empathize with someone struggling financially
7. Classic: Nine dots puzzle (think outside the square)
8. Divergent: How many ways to get from Earth to Moon without spaceship?
9. Reflection: Review first 8 responses. What assumptions did you challenge?
10. Incubation: Sleep on one unsolved challenge. Revisit tomorrow.

Days 11-20: Ideation & Technique Application 11. Worst Idea: Generate worst ideas for making money. Flip them into good ones. 12. Lateral: Two men, same drink, one lives one dies (poison in ice) 13. Combine: Smartphone + kitchen appliance = 20+ concepts 14. Design Thinking: Empathize with your target customer 15. Analogies: Solve “how to get first customer” by drawing analogies from nature 16. SCAMPER on Problem: Apply to “how to make money with no budget” 17. Crazy 8s: 8 quick solutions to “how to reach \$1K/month” in 8 minutes 18. Mid-Course Review: Pick favorite 3 ideas. Develop one with pros/cons 19. Role/Reversal: Explain your business as if to a 5-year-old, then an alien 20. Mind Map: Map your path from \$419 surplus to \$10K/month

Days 21-30: Advanced Integration 21. TRIZ-Inspired: Identify contradictions in your business model 22. Constraints: Build a business plan with \$0 budget, 3 hours daily 23. Future Party: Problem solved in one year. Work backwards. 24. Hybrid: Combine SCAMPER + lateral thinking on your offer 25. Capstone: Define your challenge. Run full CPS/Design Thinking. Reflect on growth.

Action Steps (This Week)

1. Complete Days 1-5 of the creative challenges
 2. Apply SCAMPER to your current financial situation
 3. Run the 5 Whys on “why haven’t I started yet”
-

PHASE 1: SKILL ACQUISITION & VALIDATION

MODULE 1.1: MASTERING SALES & STORYTELLING (PBD STYLE)

Why This Is Your #1 Priority

Sales and storytelling are the ultimate high-income skills. Patrick Bet-David built PHP Agency and Valuetainment largely through mastering these. For you (starting with no assets, no money), this is perfect: both skills cost nothing but time and deliberate practice. They compound faster than almost anything else.

Mastery means: You can persuade, connect emotionally, overcome objections, and close while staying authentic. Facts tell, stories sell.

Part 1: Mastering Storytelling (The Foundation)

Stories build trust, bypass resistance, and make you memorable.

Core Framework: The Hero's Transformation Story Setup → Struggle → Shift → Solution → Result

1. **Setup:** Set the scene. Introduce the hero (your prospect or your past self).
2. **Struggle:** Detail the pain/frustration (make it relatable).
3. **Shift:** The turning point or realization.
4. **Solution:** What changed it (your offer, skill, or lesson—subtly).
5. **Result:** The transformed outcome + emotional payoff.

Your Personal Origin Story Template “I was [specific struggle: broke, in a shack, negative net worth]. Every [specific action: wasted dollar, missed opportunity] made my future smaller. Then I [specific shift: started documenting, learned one skill, made one decision]. Now [specific result: I'm building systems, helping others, creating freedom]. And here's how you can do the same...”

Example (Your Story): “I was a guy from Trinidad with a negative net worth of \$242,000, living in a shack, wondering if I'd ever break free. Every dollar I spent frivolously was a dollar my future self would never see again. Then I started treating money like time—something that compounds, for better or worse. I built systems. I learned to sell. I documented everything. Now I'm building a path to financial independence, and I'm showing others with nothing how to do the same.”

Client/Prospect Story Template “Imagine [their situation]. You're [specific pain]. [Specific consequence]. One change—[your solution]—and [specific transformation].”

Example: “Imagine running a small business, drowning in admin work. You're exhausted, opportunities slip by, and you're too busy working IN the business to work ON it. One change—systematizing with simple AI tools—freed up 15 hours a week and added \$3K/month in new revenue.”

Part 2: Mastering Sales (The Execution Engine)

PBD's Sales Process Prospecting → Approach/Contact → Presentation → Handling Objections → Close → Follow-up → Referrals

Key Techniques

- **Assume the Sale:** Speak as if they're already in.
- **Handle Objections Head-On:** Don't avoid. Slash them directly.
- **Center of Influence Prospecting:** List top 20 respected people. Build relationships.
- **Scripts with Personality:** Use scripts but inject YOUR story.

High-Impact Sales Framework: SPIN + Story

- **Situation:** Ask about their current reality.
- **Problem:** Uncover pains.
- **Implication:** Amplify the cost of inaction (tie to compounding negative effects).
- **Need/Payoff:** Show the positive future (your solution + story).

Example Cold Outreach Script “Hey [Name], I saw you're [specific observation about their business/situation]. Most people in your spot waste hours on [specific problem]. I helped someone just like you [specific result]—here's what happened... [Short story]. Would you be open to a 10-minute chat about how this might work for you?”

Objection Handling Examples

- **“I can't afford it”** → “I get it. Let's look at what NOT solving this is costing you over the next 12 months. [Calculate their cost of inaction].”
- **“I need to think about it”** → “Of course. What specifically do you need to think through? Let's address it now.”
- **“I'm not ready”** → “What would need to be true for you to be ready? Let's map that out.”

30-Day Sales & Storytelling Mastery Plan

Week 1: Foundations

- Watch 5-10 PBD Valuetainment videos on sales/storytelling daily (free on YouTube)
- Write & record 5 personal stories
- Practice 10 cold messages/DMs using basic script

Week 2: Prospecting & Outreach

- Build your Top 20 Center of Influence list
- Make 5-10 outreach attempts daily (LinkedIn, Facebook groups, local networks)
- Record and review every sales conversation

Week 3: Presentation & Objections

- Role-play with mirror/friend: Run full SPIN + story pitches
- Join free sales communities (Reddit r/sales, Facebook groups)

Week 4: Close & Scale

- Secure 1-3 paid micro-gigs or beta clients (even \$50-100)
- Ask for referrals and testimonials after every win
- Review wins/losses weekly in “Evidence of Compounding” log

Action Steps (This Week)

1. Write your 300-word origin story
2. Record yourself telling it (2 minutes max)
3. Write 3 client-type stories
4. Make 10 cold outreach attempts using the SPIN + Story framework

MODULE 1.2: THE PAID PRESENTATION METHOD (Dan Henry’s \$40M Approach)

The Core Concept

You don’t need a big audience or fancy funnels to start. The method:

1. Create free content to attract leads
2. Sell a low-ticket paid presentation (\$27-97)
3. Use it to upsell high-ticket premium offers (\$1K-10K+)

Dan Henry went from pizza delivery guy with zero followers to \$40M in sales using this.

The shift: People buy IMPLEMENTATION, not just information. A paid presentation proves your value in a group setting and naturally filters buyers ready for more.

Why This Fits Your Constraints

- **\$0 budget:** Start with organic content, free tools
- **3-hour window:** One presentation per week is manageable
- **No audience needed:** Paid traffic OR organic content drives sales
- **AI does 80-90%:** AI helps create content, slides, scripts, follow-up

The Funnel Architecture

```
FREE CONTENT (TikTok/YouTube/LinkedIn/X)
  ↓
PAID PRESENTATION ($27-97 workshop/masterclass)
  ↓
PREMIUM OFFER ($1K-10K+ coaching/program)
  ↓
HIGH-TICKET ($5K-25K+ done-with-you)
```

Module Breakdown

Step 1: Identify Your Macro Problem What specific, painful problem do you solve?

Your macro problem: “Helping people with negative net worth and limited time build their first revenue engine using systems, AI, and compounding principles.”

Your 5-10 micro problems:

1. "I don't know what to sell"
2. "I have no money to start"
3. "I only have 2-3 hours daily"
4. "I'm afraid of selling"
5. "I don't have an audience"
6. "I don't know what skills are valuable"
7. "I keep analyzing instead of executing"
8. "I don't understand business numbers"
9. "I can't stay consistent"
10. "I don't know how to price my offer"

Step 2: Create Irresistible Free Content **Goal:** Drive traffic and leads without charging.

Content Topics: Address micro problems that lead into your paid presentation.

Formats:

- YouTube Shorts/TikToks (60-90 seconds)
- LinkedIn posts
- Twitter/X threads
- Lead magnet (free PDF/cheat sheet)

The CTA: "Watch my free video, then join my \$47 workshop for the full system."

Content Calendar (First 2 Weeks):

- Day 1: "I had -\$242K net worth. Here's what I did first."
- Day 3: "3 skills that cost \$0 to learn but pay \$5K+/month"
- Day 5: "The \$5/day habit that made me rethink everything"
- Day 7: "Why your 9-5 will never make you wealthy (and what to do instead)"
- Day 9: "I only work 3 hours daily. Here's my exact schedule."
- Day 11: "The 'paid presentation' method: How I made my first \$1K without an audience"
- Day 13: "Stop building funnels. Do this instead."
- Day 14: "Free training: The compounding framework that changed my financial life"

Step 3: Design Your Paid Presentation **What it is:** 60-90 minute live or recorded session going deeper on a micro problem.

What it includes:

- Deep dive on ONE micro problem
- Q&A and actionable steps

- Templates/resources
- Strong pitch at the end for premium offer

Pricing: \$27-97 (low friction, filters serious buyers)

Delivery: Host live on Zoom initially (better conversion to premium). Record for evergreen later.

Presentation Outline:

1. **Hook** (5 min): Story of your transformation
2. **Problem** (10 min): The micro problem and why it matters
3. **Agitation** (10 min): Cost of NOT solving it (compounding negative)
4. **Solution Steps** (30 min): The framework/system
5. **Case Study** (10 min): Someone who applied this (or your own story)
6. **Q&A** (15 min): Live questions
7. **Offer** (10 min): Premium offer pitch + application

Step 4: Selling Without an Audience Core Method: Paid traffic + organic content to drive sales.

Steps:

1. Run ads to free content OR directly to paid presentation page (start \$10-50/day when you have budget)
2. Promote via email list (even small one)
3. Do live presentations regularly (weekly/monthly)
4. Use scarcity: Limited seats or time-limited bonuses

Metrics to Track:

- Cost per lead
- Cost per paid presentation sale
- Conversion rate to premium
- LTV of customer

Step 5: The Upsell — Turning Buyers into High-Ticket Clients This is where the real money is made.

Premium Offers:

- One-on-one coaching (start here if new)
- Group program
- Advanced workshop series
- Done-for-you templates/tools

How to Close:

- End of presentation: “If you want personalized help implementing this, fill out an application.”

- Application qualifies serious buyers
- Follow up with calls or automated emails

Real Results Example: One workshop generated \$30K from low-ticket + \$130K from premium applications.

Action Steps (This Week)

1. Pick ONE micro problem for your first paid presentation
2. Create 3 pieces of free content on that topic
3. Outline your 60-90 minute presentation
4. Set a launch date (2-3 weeks out)
5. Build simple landing page (Carrd, free)

MODULE 1.3: HIGH-INCOME SKILLS FOR ZERO-ASSET FOUNDERS

The Cash Flow Quadrants (Kiyosaki)

E (Employee) → S (Self-Employed) → B (Business Owner) → I (Investor)

From zero, you start in E or S while building the others on the side. The goal: Create scalable systems that generate income without your constant presence.

Skills That Command Premium Pay (Zero Capital Required)

1. Sales/Storytelling

- Learn to sell anything (yourself, ideas, products)
- PBD built empires on this
- Practice daily via free content, cold outreach, conversations

2. Content Creation

- Document your journey
- One piece of content per day compounds into audience + authority
- Platforms: LinkedIn, X, TikTok, YouTube Shorts

3. Simple Tech/No-Code

- Free tiers of Carrd, Bubble, Notion, Canva
- Basic automation with Zapier (free tier)
- AI tools for content, design, research

4. Deal-Making

- Partnerships, joint ventures, revenue shares
- No money required—just hustle and vision

Real-World Use Cases for You

Use Case 1: Day Job + Evening Freelance

- Day job for basics and learning
- Evening: Offer “LinkedIn profile optimization” or “cold outreach scripts” to small businesses
- First \$500-1K/month extra funds your next move

Use Case 2: Content Channel + Affiliate

- Document your journey building from zero
- Monetize via affiliate links (books, tools you use)
- Many went from broke to multi-six figures this way

Action Steps (This Week)

1. Pick ONE high-income skill to master first (recommend: sales/storytelling)
2. Consume free training daily (PBD videos, YouTube)
3. Practice daily (even 30 minutes)

MODULE 1.4: VALIDATION FRAMEWORK — 6-PHASE ULTIMATE IDEA VALIDATOR

Before You Build Anything

Most founders fail because they build before validating. Here’s your framework:

Phase 1: Red Team Council

Question: What are all the reasons this idea could fail?

- No one will pay for this
- I can’t reach the audience
- The problem isn’t painful enough
- Competition is too strong
- I don’t have the skills

Action: Write 10 reasons it could fail. For each, write one mitigation.

Phase 2: SaaS Architecture Audit

Question: Can this be built with AI/no-code in my 3-hour window?

- What tools are needed?
- What’s the MVP?
- Can I launch in 2 weeks?

Phase 3: MVP Qualification

Question: What’s the smallest version that delivers value?

- One feature

- One customer segment
- One pricing tier

Phase 4: Security Review

Question: What are the risks?

- Financial risk
- Reputation risk
- Time risk
- Legal risk

Phase 5: Market Proof

Question: Is anyone already paying for something similar?

- Search for competitors
- Check if similar products have revenue
- Look for “spreadsheet signals” (people sharing Google Sheets/Notion templates)

Phase 6: Chairman’s Verdict

Question: Based on all evidence, GO or NO-GO?

- If GO: One next action, today
- If NO-GO: Kill it fast. Pivot.

Kill Conditions

- Can’t get 3 people to say “I’d pay for that” in 2 weeks
- Requires more than \$100 to start
- Requires more than 3 hours daily to maintain
- No clear path to \$1K/month in 90 days

Action Steps (This Week)

1. Run the 6-phase validator on your top 3 ideas
 2. For the winner, identify your ONE next action
 3. Execute that action TODAY
-

PHASE 2: BUILDING YOUR FIRST REVENUE ENGINE

MODULE 2.1: THE PAID PRESENTATION FUNNEL — COMPLETE BUILD

Week-by-Week Implementation

Week 1: Foundation

- Complete Money Autobiography rewrite
- Write origin story
- Pick macro problem + first micro problem
- Set up basic tools (Carrd, ConvertKit free tier, Zoom)

Week 2: Content Creation

- Create 7 pieces of free content
- Post daily on ONE platform
- Build simple landing page for paid presentation
- Set up email capture

Week 3: Presentation Build

- Outline full 60-90 minute presentation
- Create slides (Canva, free)
- Prepare worksheets/resources
- Practice delivery 3 times

Week 4: Launch

- Promote via content + outreach
- Run first paid presentation (live)
- Deliver value + pitch premium
- Follow up with all attendees

The Complete Funnel Stack (Free Tools)

Component	Free Tool	Purpose
Landing Page	Carrd	Sell paid presentation
Email Capture	ConvertKit (free tier)	Build list
Presentation	Zoom (free, 40 min)	Deliver value
Slides	Canva	Visual support
Payment	Gumroad	Collect payment
Content	Phone camera	Create daily content
Scheduling	Calendly (free)	Book calls

Action Steps (This Week)

1. Set up Carrd landing page
 2. Create first 3 pieces of content
 3. Outline your paid presentation
 4. Schedule your first live session
-

MODULE 2.2: DIGITAL PRODUCT CREATION — NO-CODE, AI-ASSISTED

Types of Digital Products You Can Create

1. Paid Presentations/Workshops (\$27-97)

- Live or recorded
- One deep-dive topic
- Includes Q&A and resources

2. Templates & Tools (\$9-49)

- Notion templates
- Spreadsheet templates
- Checklists and frameworks
- Canva templates

3. Guides & E-Books (\$7-27)

- Short, actionable guides
- Step-by-step frameworks
- “How I did X” case studies

4. Mini-Courses (\$47-197)

- 3-5 video lessons
- Worksheets and exercises
- Community access

5. Micro-SaaS (\$9-99/month)

- Simple software tool
- Solves one specific problem
- Recurring revenue

AI-Assisted Creation Workflow

Step 1: Research (AI)

- Use AI to research topics, competitors, customer pain points
- Generate content ideas
- Outline products

Step 2: Create (AI + You)

- AI drafts content, scripts, copy
- You add personal stories, voice, expertise
- AI helps design (Canva AI, Midjourney)

Step 3: Build (No-Code)

- Carrd for landing pages
- Gumroad for delivery
- Notion for templates
- Bubble for simple apps

Step 4: Launch (Organic)

- Content marketing
- Community engagement
- Direct outreach

Action Steps (This Week)

1. Pick your first digital product type
2. Use AI to outline and draft it
3. Build with free no-code tools
4. Set launch date

MODULE 2.3: MICRO-SaaS FUNDAMENTALS — AI-BUILDABLE IDEAS

What is Micro-SaaS?

- Small software tool solving ONE problem
- Run by 1-3 people
- Under \$50K MRR (average: \$1,735 MRR)
- Bootstrapped, no VC
- 64% average profit margin

Why Micro-SaaS Fits Your Constraints

- **\$0 budget:** Build with AI/no-code
- **3-hour window:** One feature, minimal maintenance
- **AI does 80-90%:** AI writes code, designs, markets
- **Recurring revenue:** \$10-99/month per customer compounds

The 5-Point Validation Checklist

Criteria	What to Look For
Pain Point	Does it solve a real, urgent problem?
Niche Focus	Is the target audience specific enough?

Table 4 – continued

Criteria	What to Look For
Recurring Value	Will customers pay monthly/yearly?
Competition	Is there room for a better solution?
Your Advantage	Can you reach this audience?

Revenue Potential Formula

Monthly Revenue = Customers × Monthly Price

\$10,000 MRR = 200 customers × \$50/month

\$10,000 MRR = 500 customers × \$20/month

\$10,000 MRR = 1,000 customers × \$10/month

Micro-SaaS Ideas for Your Context

Idea 1: “Mindset Tracker” for Entrepreneurs

- Problem: Entrepreneurs struggle with consistency and mindset
- Solution: Simple daily check-in tool with streaks, journaling prompts, progress tracking
- Price: \$9-19/month
- Audience: Aspiring entrepreneurs, side-hustlers

Idea 2: “Content Calendar AI” for Creators

- Problem: Creators waste time planning content
- Solution: AI-generated content calendar based on niche and goals
- Price: \$19-49/month
- Audience: Content creators, coaches, consultants

Idea 3: “Debt Snowball Visualizer”

- Problem: People with debt can’t see progress
- Solution: Visual debt payoff tracker with compounding projections
- Price: \$5-15/month
- Audience: People paying off debt, financial coaches’ clients

Action Steps (This Week)

1. Research 3 micro-SaaS ideas in your niche
2. Validate with 10 potential customers
3. If 3+ say “I’d pay,” outline MVP
4. Build smallest version in 2 weeks

MODULE 2.4: TRAFFIC & LAUNCH — SELLING WITHOUT AN AUDIENCE

The Myth of “Needing an Audience”

Dan Henry had ZERO followers when he started. He used PAID traffic and direct outreach.

Traffic Strategies (Zero to Low Budget)

1. Organic Content (Free)

- Post daily on ONE platform
- Focus on ONE micro problem
- CTA to paid presentation
- Consistency > perfection

2. Direct Outreach (Free)

- 10 outreach messages daily
- LinkedIn, Facebook groups, Reddit
- Personalized, value-first
- SPIN + Story framework

3. Community Engagement (Free)

- Join 5 relevant Facebook groups
- Answer questions daily
- Provide value, don't sell
- DM interested people

4. Paid Ads (When You Have \$100-500)

- Facebook/Instagram ads to free content
- YouTube ads to presentation
- Start \$10-50/day
- Scale what converts

Launch Sequence

Day -14: Announce launch date **Day -10:** Start daily content **Day -7:** Open early-bird registration
Day -3: Final push content **Day 0:** Live presentation **Day +1:** Follow up with attendees **Day +3:**
Follow up with no-shows **Day +7:** Open premium offer applications

Action Steps (This Week)

1. Pick your primary traffic strategy
 2. Create content calendar for launch
 3. Build outreach list of 50 potential customers
 4. Schedule your launch date
-

PHASE 3: SCALING & SYSTEMS

MODULE 3.1: THE 7 BUSINESS METRICS THAT BUILD REAL WEALTH (Dan Martell)

The Core Principle

Build a business you could sell—even if you never do. This forces better systems, margins, and freedom.

Metric 1: Enterprise Value

Formula: Annual Profit $\times$ Industry Multiple **Example:** \$500K profit at 3x multiple = \$1.5M value

Action: Audit if your business collapses without you

Metric 2: Gross Margin

Formula: (Revenue - COGS) / Revenue $\times$ 100 **Target:** 60%+ for digital products, 70%+ for SaaS

Action: Calculate current margin. Identify 2-3 ways to improve.

Metric 3: Churn Rate

Formula: (Customers Lost $\div$ Total Customers) $\times$ 100 (monthly) **Target:** <5% monthly for SaaS, <10% for coaching **Action:** Calculate monthly churn. Set goal to cut in half.

Metric 4: Lifetime Value (LTV)

Formula: (Monthly Revenue per Customer) $\div$ Monthly Churn Rate **Example:** \$100/month at 2% churn = \$5,000 LTV **Action:** Compute LTV for main customer segments.

Metric 5: Customer Acquisition Cost (CAC)

Formula: Total Marketing Spend $\div$ New Customers Acquired **Rule:** CAC should pay back in <3 months **Action:** Track last 10-20 customers' acquisition costs.

Metric 6: Conversion Rate

Formula: (Closed Deals $\div$ Leads) $\times$ 100 **Action:** Map customer journey. Calculate stage-by-stage conversion. Fix weakest step.

Metric 7: Runway / Burn Rate

Formula: Cash in Bank $\div$ Monthly Burn Rate **Action:** Know your cash buffer. Adjust aggression based on runway.

Your One-Page Business Health Dashboard

Create a simple spreadsheet tracking all 7 metrics weekly.

Action Steps (This Week)

1. Calculate your current numbers for all 7 metrics
2. Identify the ONE metric that needs most improvement
3. Set 30-day target for that metric

MODULE 3.2: THE DOUBLING GAME & COMPOUNDING ENGINES

The Doubling Game (PBD)

Focus on the NEXT double, not the total.

The Math: \$1,000 → \$2,000 → \$4,000 → \$8,000 → \$16,000 → \$32,000 → \$64,000 → \$128,000 → \$256,000 → \$512,000 → \$1,024,000

10 doubles = \$1M+. Each double gets easier as the base grows.

Your Doubling Roadmap

Double #	Target	Timeline	Action
1	\$419 → \$838	Month 1	First paid client
2	\$838 → \$1,676	Month 2-3	Consistent clients
3	\$1,676 → \$3,352	Month 4-6	Productize service
4	\$3,352 → \$6,704	Month 7-9	Launch paid presentation
5	\$6,704 → \$13,408	Month 10-12	Scale to \$10K/month
6	\$13,408 → \$26,816	Year 2 Q1	Multiple streams
7	\$26,816 → \$53,632	Year 2 Q2	Team/AI automation
8	\$53,632 → \$107,264	Year 2 Q3	Micro-SaaS launch
9	\$107,264 → \$214,528	Year 2 Q4	Scale SaaS
10	\$214,528 → \$429,056	Year 3	Financial independence

Compounding Engines to Layer

1. **Business equity** (your main revenue engine)
2. **Real estate** (later, when you have capital)
3. **Public markets** (index funds, once you have \$1K+ to invest)
4. **Private deals** (revenue shares, partnerships)
5. **Intellectual property** (books, courses, templates)

Action Steps (This Week)

1. Calculate your next double target
2. Identify ONE action to reach it
3. Execute that action daily

MODULE 3.3: MULTIPLE INCOME STREAMS — ACTIVE TO PASSIVE

The Cash Flow Quadrant Progression

E → S → B → I

Stage 1: Active Income (Months 1-6)

- Freelance services
- Coaching/consulting
- Paid presentations
- Goal: \$2-5K/month

Stage 2: Hybrid Income (Months 6-12)

- Digital products (sell once, earn forever)
- Affiliate marketing
- Small group programs
- Goal: \$5-10K/month

Stage 3: Passive Income (Months 12-24)

- Micro-SaaS (recurring revenue)
- Course royalties
- Dividend stocks
- Goal: \$10-20K/month

Stage 4: Investment Income (Years 2-3)

- Real estate
- Private equity
- Index funds
- Goal: \$20K+/month

Action Steps (This Week)

1. Identify which stage you're in
2. What's the NEXT stream to add?
3. What's ONE action to start it?

MODULE 3.4: AUTOMATION, AI & DELEGATION SYSTEMS

The 80/20 Rule for Your 3-Hour Window

80% of results come from 20% of activities. Identify your high-leverage activities:

High-Leverage (Do These):

- Sales calls
- Content creation
- Product development

- Strategic partnerships

Low-Leverage (Automate/Delegate):

- Scheduling (Calendly)
- Email follow-up (automated sequences)
- Social media posting (scheduling tools)
- Customer support (chatbots, FAQs)
- Research (AI tools)

AI Tools for Your Business

Task	Free AI Tool
Content writing	ChatGPT, Claude
Design	Canva AI, Midjourney
Code	GitHub Copilot, Replit
Research	Perplexity, Google AI
Automation	Zapier (free tier), Make
Video editing	CapCut, Descript
Email	ConvertKit AI

The Power Block System

Protect 90-120 minute deep work blocks:

- **Morning Block:** Content creation + outreach
- **Evening Block:** Product development + learning
- **One Power Block = one high-leverage action**

Action Steps (This Week)

1. Audit your current 3-hour window
2. Identify what to automate/eliminate
3. Set up ONE automation
4. Protect your Power Blocks

PHASE 4: PRESERVATION & LEGACY

MODULE 4.1: KEEPING WHAT YOU BUILD — DEFENSE SYSTEMS

The Rich Get Richer Because They Don't Lose

Insurance & Risk Management

- Professional liability insurance (when you have revenue)
- Health insurance
- Disability insurance

Liquidity & Emergency Funds

- 6 months expenses in cash
- “Dry powder” for opportunities/crashes
- Never fully invested

Behavioral Edge

- Control what you can (saving, time in market)
- Ignore noise
- Avoid lifestyle creep
- Frugality at the core (Buffett lives simply)

The Four Treasures (PBD)

1. **Money**
2. **Skills**
3. **Health**
4. **Influence**

Influence compounds fastest. Protect all four.

Action Steps (This Week)

1. Calculate your emergency fund target
2. Set up automatic savings (even \$50/month)
3. Review one insurance need

MODULE 4.2: TAX EFFICIENCY & LEGAL STRUCTURES

Basic Structures (Start Simple)

- **Sole Proprietorship:** Start here
- **LLC:** When you have consistent revenue
- **S-Corp:** When you hit \$50K+/year

Tax Efficiency Strategies

- Track ALL business expenses
- Home office deduction
- Business meals/travel
- Retirement accounts (SEP-IRA, Solo 401k)
- Hire family members (if applicable)

Action Steps (This Week)

1. Set up simple bookkeeping (Google Sheets)
 2. Track all business expenses
 3. Research LLC formation in your jurisdiction
-

MODULE 4.3: GENERATIONAL THINKING — FIVE MOVES AHEAD

Think Five Moves Ahead (PBD)

The super-rich think in decades or centuries. Build systems that outlive you.

Move 1: Financial Independence

- Enough passive income to cover expenses
- Freedom to choose your work

Move 2: Wealth Building

- Assets that appreciate and generate income
- Business equity, real estate, investments

Move 3: Legacy Creation

- Systems that operate without you
- Team, automation, IP

Move 4: Generational Wealth

- Trusts, estate planning
- Teaching children financial literacy

Move 5: Impact & Philanthropy

- Using wealth for positive change
- Building institutions that outlive you

Action Steps (This Week)

1. Write your “Five Moves Ahead” vision
 2. What does Move 1 look like for you?
 3. What’s ONE action toward Move 1?
-

MODULE 4.4: YOUR 30-DAY WEALTH ACTIVATION PLAN

Week 1: Foundation

- Rewrite money story
- Calculate Clarity Triad (Month-Ahead, Freedom Gap, Debt Ratio)
- List current assets/income
- Set up Evidence of Compounding log

Week 2: Offense

- Identify one doubling opportunity
- Start/optimize one compounding vehicle
- Create first 3 pieces of content
- Make 10 outreach attempts

Week 3: Defense

- Review protection (insurance, will)
- Track expenses with Alignment Question: “Does this serve my next double?”
- Kill one negative compounder
- Automate one savings/investment

Week 4: Systems

- Draft personal “Business Plan” or Investment Policy Statement
- Schedule quarterly reviews + daily/weekly money habits
- Build your network (join 3 groups)
- Plan next 30 days

Ongoing

- Read one finance book/quarter
 - Listen to Valuetainment weekly
 - Review “Evidence of Progress” monthly
 - Recalculate Enterprise Value quarterly
-

APPENDICES

APPENDIX A: 30-DAY CREATIVE THINKING CHALLENGES

Days 1-10: Foundations & Lateral Thinking

1. **Classic Lateral:** A man walks into a bar and asks for a glass of water. The bartender pulls a gun and points it at him. The man says “Thank you” and leaves. Why?
2. **Divergent:** List 50+ alternative uses for a common paperclip

3. **Lateral:** A man is found dead in a field with an unopened package beside him. No one else is around. How did he die?
4. **Reframing:** Take “I’m always broke” → rephrase as 5 “How Might We” questions
5. **Situation Puzzle:** Five pieces of coal, a carrot, and a scarf are on a lawn. No one placed them there. Explain.
6. **SCAMPER Warm-up:** Pick a household object. Apply all 7 SCAMPER prompts.
7. **Lateral:** Three switches, one bulb in another room. Figure out which switch with one trip.
8. **Divergent:** How many ways to get from Earth to Moon without a spaceship?
9. **Classic:** A couple enters a ballroom; everyone inside is dead. No crime or violence. What happened?
10. **Reflection:** Review first 9 responses. Sleep on one unsolved challenge.

Days 11-20: Ideation & Technique Application

11. **Worst Idea:** Worst ideas for making money. Flip into good ones.
12. **Lateral:** Two men enter a restaurant, order same drink. One lives, one dies. Why?
13. **Divergent/Combine:** Smartphone + kitchen appliance = 20+ concepts
14. **Design Thinking Mini:** Empathize with your target customer
15. **Nine Dots:** Connect 9 dots with 4 straight lines or fewer
16. **SCAMPER on Problem:** Apply to “how to make money with no budget”
17. **Lateral:** A man pushes his car to a hotel and knows he’s bankrupt. Why?
18. **Analogies:** Solve “how to get first customer” by drawing analogies from nature
19. **Crazy 8s:** 8 quick solutions to “how to reach \$1K/month” in 8 minutes
20. **Mid-Course Review:** Pick favorite 3 ideas. Develop one with pros/cons.

Days 21-30: Advanced Integration

21. **Lateral/Logic:** Four men buried in sand with hats (classic hat puzzle)
22. **Divergent Constraints:** Build a city on the ocean floor. Detail elements.
23. **TRIZ-Inspired:** Identify contradiction in your business model
24. **Role/Reversal:** Explain your business as if to a 5-year-old, then an alien
25. **Lateral Collection:** Research/solve 2-3 more classic puzzles
26. **Mind Map + Prototype:** Map path from \$419 to \$10K/month
27. **Put to Another Use:** Brainstorm 30 new contexts for your skills
28. **Future Party:** Problem solved in one year. Work backwards.
29. **Hybrid:** Combine SCAMPER + lateral thinking on your offer
30. **Capstone:** Run full CPS/Design Thinking on your business. Reflect on growth.

APPENDIX B: COMPLETE SALES SCRIPTS & TEMPLATES

Cold Outreach Template (LinkedIn/DM)

“Hey [Name], I saw you’re [specific observation]. Most people in your spot struggle with [specific problem]. I helped someone just like you [specific result]—here’s what happened: [2-sentence story]. Would you be open to a 10-minute chat about how this might work for you?”

Paid Presentation Pitch (End of Free Content)

“If you found this helpful, I go WAY deeper in my [\$47] workshop where I show you the exact [system/framework] I used to [specific result]. We do it live, you can ask questions, and you get [specific resources]. Only [X] seats. Link in bio/comments.”

Premium Offer Pitch (End of Presentation)

“If you want me to personally help you implement this—hold your hand through every step, customize it for YOUR situation, and make sure you actually get results—I’ve opened up [3 spots] for my [coaching program]. It’s [price]. If that sounds like what you need, fill out the quick application [link]. We’ll jump on a call and see if it’s a fit.”

Objection Handling Scripts

- **“I can’t afford it”** → “I get it. What’s this problem currently costing you per month? [Let them answer]. So over 12 months, that’s [X].*My solution is* [Y]. Which is the bigger expense?”
 - **“I need to think about it”** → “Totally understand. What specifically do you need to think through? Let’s address it right now so you have clarity.”
 - **“I’m not ready”** → “What would need to be true for you to feel ready? Let’s map out those conditions.”
 - **“I’ve tried everything”** → “I hear you. What specifically have you tried? [Listen]. Here’s what makes this different...”
-

APPENDIX C: MICRO-SaaS IDEA VALIDATION CHECKLIST

Pre-Build Validation

- I’ve identified a specific audience I can reach
- I’ve found 10+ people with this problem
- 3+ people said “I’d pay \$X/month for this”
- I’ve researched competitors and found gaps
- I can build MVP in 2 weeks with AI/no-code
- The problem is painful enough that people search for solutions
- I can acquire customers for less than their LTV

Build Checklist

- One feature solves the core problem
- Landing page explains value in <30 seconds
- Pricing is clear and simple
- Payment processing works
- Onboarding is self-serve
- Support is documented (FAQ, chatbot)

Launch Checklist

- 10 beta users signed up
- Feedback collected and incorporated
- Pricing tested with real payments

- Content calendar for launch week
- Outreach list of 50 potential customers
- Analytics tracking set up

APPENDIX D: WEEKLY POWER BLOCK SCHEDULE

The 3-Hour Daily Framework

Option A: Morning Person

- 5:00-6:30 AM: Power Block 1 (Content + Outreach)
- 6:30-7:00 AM: Break/Commute prep
- 7:00-8:30 AM: Day job

Option B: Evening Person

- 6:00-7:30 PM: Power Block 1 (Content + Outreach)
- 7:30-8:00 PM: Dinner/Break
- 8:00-9:30 PM: Power Block 2 (Product + Learning)

Weekly Template

Day	Morning Block	Evening Block	Focus
Monday	Content creation	Outreach (10 DMs)	Offense
Tuesday	Content creation	Sales calls	Offense
Wednesday	Product development	Learning/study	Build
Thursday	Content creation	Outreach (10 DMs)	Offense
Friday	Product development	Review metrics	Systems
Saturday	Content batching	Planning	Prep
Sunday	Rest/Incubation	Rest/Incubation	Recovery

Daily Non-Negotiables

- One piece of content published
- 5-10 outreach messages sent
- One sales/storytelling practice
- One “Evidence of Compounding” entry

APPENDIX E: EVIDENCE OF COMPOUNDING LOG TEMPLATE

Daily Log (5 minutes)

Date: _____

Today's 1% Improvement:

Positive Compounding Actions:

1. _____
2. _____

Negative Compounding Avoided:

1. _____

Wins (No Matter How Small):

1. _____

Lessons Learned:

Tomorrow's Priority:

Weekly Review (15 minutes)

Week of: _____

Key Metrics:

- Revenue: \$ _____
- New leads: _____
- Content pieces: _____
- Outreach messages: _____
- Sales conversations: _____

What Worked:

What Didn't:

Revenue Progress:

- Target: \$ _____
- Actual: \$ _____
- Gap: \$ _____

Doubling Progress:

- Current stage: _____

- Next double target: \$ _____

Skills Built:

Systems Improved:

Next Month's Priority:

FINAL WORDS: THE CHAIRMAN'S VERDICT

You now have the complete operating system. Not theory. Not fluff. A comprehensive, research-backed, zero-budget framework built specifically for your constraints.

Your unfair advantages:

1. Your lived transformation (shack to house) — no one can replicate this
2. Your systems thinking — you see patterns others miss
3. Your 3-hour discipline — forced focus beats scattered effort
4. Your AI leverage — 80-90% of work automated
5. Your published book — authority asset already in hand

The path is clear:

- Phase 0: Install the mindset (Weeks 1-2)
- Phase 1: Master sales + storytelling, validate first idea (Weeks 3-6)
- Phase 2: Launch paid presentation, build first revenue engine (Weeks 7-14)
- Phase 3: Scale with systems, metrics, multiple streams (Weeks 15-24)
- Phase 4: Preserve, protect, build legacy (Weeks 25-30)

Your ONE next action: Pick ONE module. Execute ONE action from it TODAY. Not tomorrow. Not after more analysis. Today.

Remember: Every dollar and minute compounds. Choose positive exponential growth.

Your future self is watching. Make them proud.

"Money responds to clarity, ownership, and persistence. Start playing today. Your future self (and family) will thank you."

"Execution beats intention. One action today beats a thousand plans tomorrow."

"You are not your net worth. You are the systems you build."

END OF COURSE
